3. In person visitation will be permitted in all of the following circumstance unless the patient objects:
 - a. End of life situations;
 - b. If a patient was living with family before being admitted to the provider's care and is struggling with the change in environment and lack of in-person family support;
 - c. The patient is making one or more major medical decisions;
 - d. The patient is experiencing emotional distress grieving the loss of a friend or family member who recently died;
 - e. The patient needs cueing or encouragement to eat or drink which was previously provided by a family member or caregiver;
 - f. A patient who used to talk and interact with others is seldom speaking;
4. Visitor conduct is expected to be appropriate and non-disruptive. Any issues related to disruptive conduct (aggression, failure to comply with policies and procedures, etc) will be initially managed by the charge nurse or supervisor. If unresolved, the issue will be brought to the attention of the CEO or CNO, or designee.
5. Consensual physical contact between a patient and the visitor is allowed.
6. Children must be accompanied and supervised by an adult at all times. Visitation of children to patients in isolation is highly discouraged.
7. Visitors may not visit with signs of active, communicable illness (fever, cough, rhinorrhea, muscle aches and pains).
 - a. Visitors will self-screen for signs and symptoms of communicable illness.
 - b. The self-screen will be attested to in the Visitor Log.
 - c. Visitors will adhere to all hospital infection control policies and procedure including those pertaining to personal protective equipment.
 - d. Visitors will receive education on infection control practices as per policy IC 7-4
 - e. Requiring proof of visitor immunization and/or vaccination is prohibited.
8. Visitors must seek permission to bring food and beverages to the patient.
9. Visitors may not bring medication or drugs (licit or illicit) at any time, unless requested and approved by the physician.
10. Visitors may never take the patient off the unit, unless accompanied by staff.
11. Visitors must respect the privacy of all patients.
12. Visitors must seek and be granted permission to review the patient's medical record.
13. The hospital staff will support the patient's choice in visitation. Information will be shared according to HIPAA policies.
14. Any issues or disputes related to visitation will be managed within the Grievance Procedure.

Essential Caregiver

Patients have the right to designate an essential caregiver. The essential caregiver may be any person designated by the patient. Visitation by the essential caregiver will be allowed for at least 2 hours daily, in addition to the standard visitation hours. Essential caregivers are not required to provide care to a patient, nor will the hospital compel an essential caregiver to provide care.
